*** The "Churchill with Positioning Vest" includes the following features:**

- Base
- Lower Anchor Attachment Straps
- Anti-Slouching Leg Strap Assembly
- Positioning Vest
- Foam Padding
- Fabric Cover
- Tether Extension Assembly
- Belt Positioning Guides

****** One Vest is included in price of "Churchill with Positioning Vest."
Retail Price of additional vests is \$375.00 each.

****** The Attachment Bracket Kit is designed for use in vehicles that do not have LATCH. The Churchill must be installed with LATCH or with the Attachment Bracket kit. All Vehicles 2003 and newer are equipped with LATCH in at least two rear seating positions, so there should be no installation issues for these vehicles and the Attachment Bracket will not be necessary. Many 2000 - 2002 models also have LATCH (See your vehicle owner's manual to verify if LATCH is present).**

For vehicles without LATCH, the attachment bracket can only be used on vehicle seats that you can slide a ruler, or similar object, from the back side of the vehicle seat through the crack in the vehicle seat (where the seat bottom and seat back come together) through to the front side of the seat. This can usually be done in mini-vans and SUVs.

Generally, the Attachment Bracket cannot be installed in the back seat of sedans. Installation of the Attachment Bracket Kit does require that a hole be drilled through the vehicle's floor board.
