1 Adaptive car seat

6000WS-N	**The Wallenberg Standard** A pediatric vehicle restraint system for children with hip or arm casts (rear facing 7.5–40 lb and 18–38 in; forward facing 28–80 lb and 28–60 in).	**$2,810.00**

REAR FACING We strongly recommend rear facing to the top rear facing weight and height range of the Wallenberg. When rear facing, the top of the child's head must be at least 1 in below the top of the seat back.

Wallenberg Standard features

- Absolutely no sides, which enables this seat to completely accommodate hip casts
- Also designed for arm casts
- Cover and foam are disposable
- A "hammock" designed specifically for children in hip casts
- Stainless steel and plastic construction make it extremely durable and easy to clean
